BACKGROUND

The Civic Trust Awards is the longest standing architectural & built environment awards scheme in Europe. Established in 1959, it recognises the very best in architecture, urban design, planning, landscape, public realm and public art. Successful projects make an outstanding contribution to the quality and appearance of the built environment and must be universally inclusive for all users, whilst offering a positive social, cultural, environmental or economic benefit to the local community.

AABC Conservation Awards scheme recognises projects of a purely conservation nature. Pro Tem Awards scheme recognises temporary projects or installations.
